

Glenham Catchment Group

Formed recently, Glenham Catchment Group is a sub-Group to Three Rivers Catchment Group. It covers the area where Kuriwai Creek feeds into Mataura.

UNDERSTANDING OUR WATER QUALITY

Before Glenham Catchment Group officially got underway, a community event was held to explore streams in the catchment. DairyNZ's lead advisor and water quality expert, Justin Kitto, presented the latest water quality data for streams in the area. He talked about environmental DNA (eDNA) sample results and the importance of water quality in the Glenham catchment ecosystem.

Mokoreta Catchment Group

Recently formed, Mokoreta Catchment Group is a sub-Group of the Three Rivers Catchment Group. The Mokoreta Catchment Group includes approximately 15 farmers and their aim is to understand the local stream and build better engagement by working closely with people in the catchment.

MOKORETA'S FIRST COMMUNITY MEETING

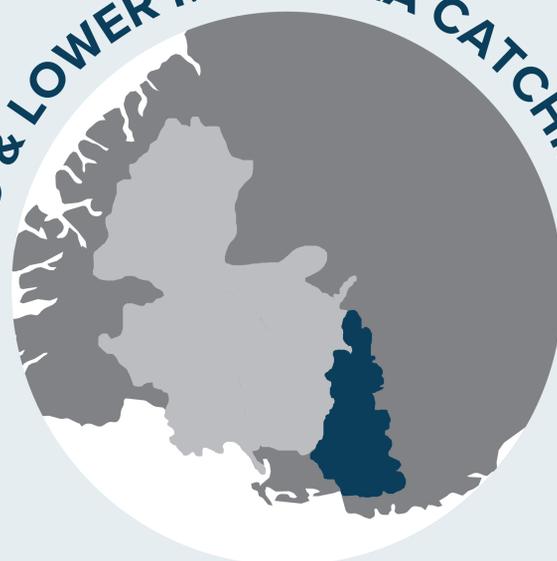

The Group's inaugural meeting attracted 25 people and there was plenty of lively discussion, with goals set and plans made for upcoming events.

UNDERSTANDING OUR WATER QUALITY

DairyNZ's lead advisor and water quality specialist, Justin Kitto, presented the latest data for the Mokoreta River, sharing environmental DNA (eDNA) sample results.

MID & LOWER MATAURA CATCHMENT

**THRIVING
SOUTHLAND**

*Tōnui ana te whenua. Tōnui ana te takata.
A thriving, prosperous land. A thriving, prosperous people.*
